About LATEX WEEK 2026

LATEX WEEK 2026 is a specialized TechnoBiz executive forum designed to bring together professionals from the latex science, technology, manufacturing, research, and business communities. This focused event serves as a high-value platform for knowledge sharing, professional networking, industry updates, and business development across the latex value chain. The event will highlight the latest developments in latex compounding, dispersions, glove technologies, research advancements, and emerging innovations shaping the future of the latex industry. With participation from manufacturers, suppliers, researchers, consultants, and technology providers, LATEX WEEK 2026 aims to create meaningful dialogue among all latex professionals

Key Highlights

- Three focused one-day conferences under one platform
- Expert presentations from industry and research professionals
- Latest updates in latex materials, formulations, and processing
- Practical insights into glove manufacturing technologies
- Discussions on innovation, sustainability, and market trends
- Networking opportunities with key stakeholders in the latex industry
- Hybrid participation for wider access and flexibility

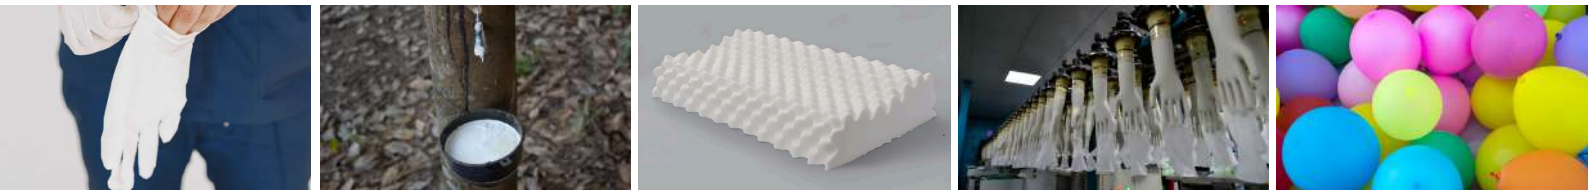

Event Venue: The Renai Cochin, Palarivattom, Kochi

Event Schedule

22 July 2026: Latex Compounding & Dispersions 2026 (9am-6pm)

A dedicated conference focusing on formulation science, raw materials, additives, processing methods, performance enhancement, and application development in latex compounds and aqueous dispersions.

23 July 2026: Latex Glove Tech 2026 (9am-6pm)

A specialized conference covering glove manufacturing technology, raw materials, compounding, dipping processes, quality control, productivity improvement, sustainability, and trends in medical and industrial gloves.

24 July 2026: Latex Research & Innovations 2026 (9am-6pm)

A forward-looking conference featuring research findings, new material developments, testing methods, sustainable technologies, innovative applications, and emerging opportunities in the latex industry.

Call for Speakers

Industry experts, researchers, technologists, and solution providers are invited to contribute as speakers at LATEX WEEK 2026. This is an excellent opportunity to share technical knowledge, present innovations, showcase case studies, and engage with a focused industry audience.

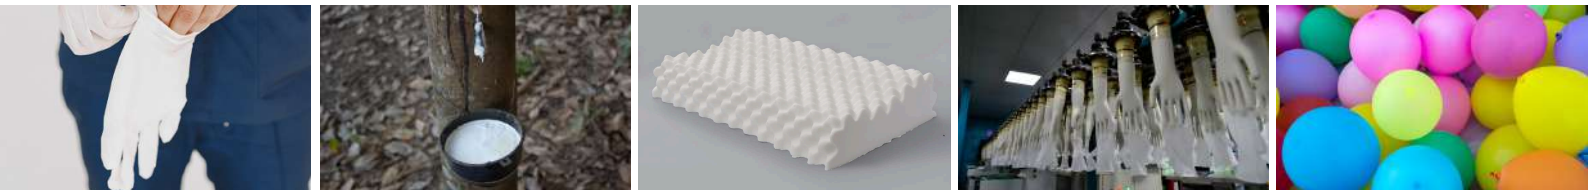

Suggested presentation areas include:

- Latex compounding and formulation development
- Additives, chemicals, and dispersions
- Glove production technologies
- Testing, quality control, and compliance
- Sustainable latex materials and processing
- New product development and innovative applications
- Research findings and academic-industry collaborations
