WELCOME MESSAGE

Peram Prasada Rao
Founder & CEO
TechnoBiz

It gives me great pleasure to launch the inaugural edition of India ChemRubPlast Southeast Asia 2026 in Kuala Lumpur, Malaysia. This initiative is designed to bridge Indian Chemical, Rubber, Plastics & Composite Technologies and Solutions with Southeast Asian markets through a focused trade exhibition, structured business meetings, and meaningful knowledge exchange. TechnoBiz firmly believes that sustainable global growth is built on collaboration and industry partnerships. By bringing together manufacturers, technology providers, machinery suppliers, raw material producers, and industrial leaders from India and Southeast Asia, we aim to create new opportunities for trade expansion, distribution partnerships, joint ventures, and long-term industrial cooperation. I sincerely thank our supporting associations and strategic partners for their valuable collaboration, and I warmly welcome all participating companies to be part of this important international business networking platform.

KK Yeaw
President
Malaysian Rubber
Products Manufacturers
Association (MRPMA)

On behalf of the Malaysian Rubber Products Manufacturers' Association (MRPMA), I am pleased to extend our full support to the inaugural edition of India ChemRubPlast Southeast Asia 2026, to be held in Kuala Lumpur, Malaysia. Malaysia and India share a strong and longstanding industrial relationship across the chemical, rubber, plastics, and related manufacturing sectors. This initiative provides a valuable and timely platform to further strengthen industry collaboration, enhance trade engagement, and promote technology exchange between our regions. The program offers excellent opportunities for manufacturers, suppliers, machinery producers, and technology solution providers to explore strategic partnerships, distribution networks, and long-term business expansion within the Southeast Asian market. It also encourages structured dialogue and meaningful engagement among industry stakeholders. MRPMA is proud to collaborate with TechnoBiz in facilitating impactful business connections that contribute to sustainable growth, innovation, and regional industrial development. We look forward to welcoming delegates from India and fostering productive business interactions during the event.

A TechnoBiz Initiative

India ChemRubPlast Southeast Asia is a focused international exhibition and business networking platform initiated by TechnoBiz to strengthen commercial and technical collaboration between Indian Chemical, Rubber, Plastics & Composite industries and Southeast Asian markets. The program facilitates structured business matchmaking, industrial networking, and market access opportunities for Indian manufacturers, machinery suppliers, raw material producers, and technology providers.

The inaugural edition, *India ChemRubPlast Southeast Asia 2026*, will be held on 30–31 March 2026 in Kuala Lumpur, Malaysia. Designed to bridge Indian industrial technologies with Southeast Asian manufacturing ecosystems, the event will feature a focused trade exhibition, structured B2B meetings, and industry engagement sessions, organized alongside TechnoBiz PU Week 2026 to ensure strong regional participation and quality business connections.

Objectives

The program aims to:

- Enable Business meetings between Indian and Southeast Asian companies
- Promote bilateral trade growth and market expansion
- Foster joint ventures and technology partnerships
- Strengthen India–Southeast Asia industrial cooperation
- Build long-term, mutually beneficial business relationships

Who Should Participate from India

- **Chemical** : Specialty and performance chemical manufacturers, Industrial and commodity chemical producers, Polymer additives and masterbatch suppliers, Adhesives, sealants and coating manufacturers, Specialty resin and formulation companies, Chemical intermediates and processing solution providers
- **Rubber**: Rubber product manufacturers, Latex product manufacturers, Tyre and tyre component manufacturers, Rubber compounders and mixing companies, Natural and synthetic rubber suppliers, Rubber, latex & tyre machinery and processing equipment manufacturers, Testing, inspection and quality solution providers, Rubber recycling, reclaimed rubber and sustainable solution companies
- **Plastics**: Plastic and polymer product manufacturers, Injection molding, extrusion and blow molding companies, Plastic processing machinery suppliers, Mould and tooling manufacturers, Engineering plastics and specialty polymer producers, Plastics recycling and circular economy solution providers
- **Composites**: Composite material and component manufacturers, Fiber, reinforcement and resin suppliers, Composite processing and fabrication technology providers, Advanced materials and lightweight solution companies, Composite tooling and mold manufacturers, Startups in advanced polymer and composite innovation
