A TechnoBiz Executive Forum on Rubber Science, Technology & Industry

Chairman Message

It is my great pleasure to welcome you to the 6th Edition of TechnoBiz Rubber Week 2026, taking place from 29–31 July 2026 in Bengaluru, India. This event brings together professionals from industry, academia, and research to share knowledge, exchange ideas, and address the evolving needs of the rubber industry.

TechnoBiz Rubber Week 2026 is a focused executive forum covering key areas of rubber science, technology, and industrial applications, with emphasis on practical insights, innovation, and industry-relevant solutions.

The 6th Edition features three specialized conferences. The first day focuses on ***Extreme-Environment & Critical Rubber***, addressing applications in aerospace, defence, energy, and marine sectors. The second day highlights ***Rubber Profiles & Vulcanization***, focusing on extrusion and process optimization. The third day explores ***TPE, TPV & Rubber Composites***, covering advanced elastomers and material innovations.

The hybrid format enables global participation and meaningful exchange of ideas. I warmly invite industry professionals, researchers, organizations, and sponsors to actively support and engage with TechnoBiz Rubber Week 2026 Bengaluru—as speakers, participants, partners, or sponsors.

I look forward to welcoming you to Bengaluru.

Prof. Kinsuk Naskar
Professor, Rubber Technology Centre
IIT Kharagpur, India

Event Schedule

29 July 2026 | Wednesday | 9am-6pm

Extreme-Environment & Critical Rubber 2026

A TechnoBiz Conference on Rubber Technology and Products for Defence, Aerospace, Marine, Oil & Gas and Energy Sectors

30 July 2026 | Thursday | 9am-6pm

Rubber Profiles & Vulcanization 2026

TechnoBiz Conference on Rubber Profiles & Vulcanization

31 July 2026 | Friday | 9am-6pm

TPE, TPV & Rubber Composites 2026

TechnoBiz Conference on TPE, TPV and Rubber Composites

Focus Areas

Extreme-Environment & Critical Rubber 2026

29 July 2026, Wednesday, 9am-6pm

- Rubber materials for high temperature, low temperature, and aggressive environments
- Elastomers for aerospace, defence, marine, oil & gas, and energy sectors
- Sealing systems and performance reliability under extreme conditions
- Resistance to chemicals, fuels, oils, radiation, and pressure
- Flame-retardant and safety-critical rubber compounds
- Advanced testing, validation, and failure analysis
- Standards, certifications, and compliance for critical applications
- Case studies on long-life and high-performance rubber components

Rubber Profiles & Vulcanization 2026

30 July 2026, Thursday, 9am-6pm

- Extrusion technologies for rubber profiles and precision products
- Continuous vulcanization (CV) systems and process optimization
- Die design, tooling, and dimensional control in profiles
- Material flow, curing kinetics, and process stability
- Automation and digital monitoring in extrusion lines
- Challenges in complex profile manufacturing and defect reduction
- Energy efficiency and cost optimization in processing
- Case studies on industrial-scale production improvements

TPE, TPV & Rubber Composites 2026

31 July 2026, Friday, 9am-6pm

- Developments in thermoplastic elastomers (TPE) and TPVs
- Material selection for automotive, consumer, and industrial applications
- Polymer blends, compatibilization, and morphology control
- Rubber composites with fillers, fibers, and nano-materials
- Lightweighting and performance enhancement strategies
- Processing techniques for TPEs, TPVs, and hybrid materials
- Recycling, sustainability, and circular material solutions
- Case studies on product design and application innovations

Call for Speakers

TechnoBiz invites experts, researchers, and industry professionals to submit speaker proposals for Rubber Week 2026, to be held in Bengaluru, India, from 29–31 July 2026. We welcome proposals that include practical case studies, applied research, technology innovations, and leadership perspectives aligned with the conference themes. This is an excellent opportunity to share your expertise, showcase your work, and contribute to the advancement of the rubber industry. Registration fees will be waived for confirmed speakers, while travel and accommodation will be the responsibility of the speakers.

Confirmed speakers will be given a 20–30 minute presentation slot, depending on the proposed topic. Speakers who submit a full paper based on their presentation will have the opportunity to be published in “Rubber World” magazine (Print & Digital Edition) as well as in the “TechnoBiz Rubber Handbook” (Digital Edition).

Interested individuals are invited to submit their presentation title, brief summary, and speaker profile at the earliest to Peram Prasada Rao at peram.technobiz@gmail.com or peram@technobiz.org.

Delegate Registration

REGISTRATION FEE / PERSON

Extreme-Environment & Critical Rubber 2026 (29 July 2026)

- In-Person Participation : Rs. 15,000 | US\$ 300
- Online Participation: Rs. 30,000 | US\$ 600

Rubber Profiles & Vulcanization 2026 (30 July 2026)

- In-Person Participation : Rs. 15,000 | US\$ 300
- Online Participation: Rs. 30,000 | US\$ 600

TPE, TPV & Rubber Composites 2026 (31 July 2026)

- In-Person Participation : Rs. 15,000 | US\$ 300
- Online Participation: Rs. 30,000 | US\$ 600

Remarks: Local Taxes apply. In-Person Participation registration fee includes lunch and refreshments.

Registration Form

SPONSORSHIPS

Corporate Sponsor: Rs. 200,000 | US\$ 2,500

- Table Top Booth at the Venue
- 5 Complimentary Entry Passes (3-Day)
- Recognition as Corporate Sponsor in Publicity Materials
- 25% Discount on Additional Passes

Supporter : Rs.100,000 | US\$ 1,500

- 2 Complimentary Entry Pass (3-Day)
- Brochure Display at Brochure Display Table
- Recognition as Supporter in Publicity Materials
- 15% Discount on Additional Passes

Remarks: Local Taxes apply.
