## NATURAL RUBBER TSR 10

### TSR

TSR which is also known as block rubber is graded according to precise technical parameters such as dirt content, ash content, nitrogen content, volatile matter and properties of rubber such as its Wallace Plasticity and Its Plasticity Retention Index (PRI)

### USAGE

Can be used for tyre, inner tubes, cushion gum stocks, joint rings by injection moulding, raincoat proofings, microcellular sheets, for upholstery and packing, conveyor belts and foot wears.

### PACKAGING AND DELIVERING

TSR 10 – 35 Kg Bales in Polybag (Can Package as per customer requirements) Un-palletised Loose Bales or Palletised

30 years later  
we are still  
making a  
difference.

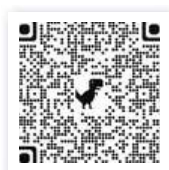

Thanks  
for riding  
with us.

Rheologists and Engineers at Alpha Technologies invented the RPA 30 years ago. Maybe you learned your craft on one of the originals. It's even possible your first RPA is still on the job (if so, please be sure to enter our Oldest RPA Sweepstakes). Our game-changing RPA came at the heels of another Alpha invention that is also an essential part of QC labs worldwide – the MDR. Then, as now, Alpha is where new ideas and capabilities come from. That's why Alpha is trusted by more top tier rubber and polymer manufacturers than any other brand.

And the best is yet to come. Our newest generation of Premier RPA is loaded with innovations like a die-gap sensor and add-on capabilities like Sub-Zero Technology. Welcome to Generation Alpha. It's going to be a great ride.

**There's a lot riding on our testing.™**

For more information or to enter our Oldest RPA Sweepstakes (big prizes!) scan the QR code.

方®

晋城天成科创股份有限公司

Jincheng Tiancheng Sci-Tech Co., Ltd

简介

Jincheng Tiancheng Sci-tech Co.,Ltd ., Ltd is a professional manufacturer of rubber accelerators, which located in Jincheng City, Shanxi, China. Over the past 10 years, our company specializes in rubber accelerators MBT, MBTS, CBS, TMTD, NOBS, TBBS with annual production 17,000 tons. The quality of our products have reached world's leading level, and our company has passed the ISO9001 and ISO14001 quality system certification successfully.

晋城天成科技股份有限公司是专业生产橡胶促进剂的企业，位于山西省陵川县石字岭化工园区。在过去的10年中橡胶促进剂年生产能力17000吨，主要品种有MBT, MBTS, CBS, TMTD, NOBS和TBBS等以及各种品种相应的造粒、充油产品。公司技术力量雄厚，生产工艺先进，检测手段完善产品质量标准与国际接轨，并通过了ISO9001质量体系认证和ISO14001环境体系认证。

# RUBBER BANDS

## Premium Quality

Dipped Rubber bands are designed for everyday and industrial application are made of high-quality natural rubber

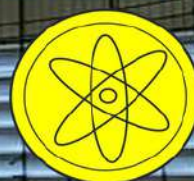

Nylon grade

Environmental friendly

Rubber Man®

# Prevulcanized LATEX

PV LATEX is a specially compounded, ready to use latex compound.  
In general, there are 3 types;

♦ Low Modulus Compound

♦ Medium Modulus

♦ High Modulus Compound

*Nitrosamine -safe*

*Accelerator -free*

*Ammonia -free*

In addition to this we can formulate  
the compound as per the customer's requirements.

# Shandong Sunsine Chemical Co., Ltd.

Sunsine Chemical was established in 1977, and listed on the main board of Singapore in 2007. Sunsine Group has 6 production bases and more than 2300 employees. Its main products include Rubber Accelerator, Antioxidant, Insoluble Sulfur and Masterbatch. With a total production capacity of more than 260,000 tons, Sunsine has become the largest rubber auxiliaries manufacturer at present.

We produce:

Rubber Accelerator: MBT, MBTS, CBS, TBBS, DCBS, NOBS, DPG, TMTD, etc

Rubber Antioxidant: 6PPD, IPPD, TMQ

Insoluble Sulfur: HD OT20, HS OT20, IS7020, HS OT33

Master Batch: S-80, CBS-80, DPG-80, MBTS-80, TMTD-80, TBBS-80, MBT-80...

We are ready to serve you.

# Eastrichon

## TIANJIN EASTRICHON RUBBER ADDITIVES CO.,LTD.

Tianjin Eastrichon Rubber Additives Co., Ltd established in 2002 focusing on the rubber chemicals researching, production, marketing and their technology improvements.

Our lustration production technology, the new technical know-how ensure our products of top quality and human cares on natural environment to make us distinguished from other suppliers. Tianjin Eastrichon gets ISO 9001 certificate, also has R&D Lab. The scientific management system could guarantee the quality with continuous improvements. Tianjin Eastrichon has the annual production ability of 20,000MTs on rubber additives. Our products are divided into 10 categories with more than 100 items. We have been exporting to Europe, North and South Americas, Southeast Asia & Middle East Asia more than 40 countries above 70% of our productivity with good reputation.

According to the customer requests, we could prepare our products in POWDER, in OILED POWDER, in GRANULE or in SUPER FINE POWDER, we become one of the most successful suppliers both on variety and quantity available for rubber additives in China.

Our Motto: "Honesty and Mutual Benefits", service for Global Rubber Industry.

## 天津东方瑞创橡胶助剂有限公司

天津东方瑞创橡胶助剂有限公司，始建于2002年，专业从事橡胶助剂产品的研发、生产与销售，是一家集科、工、贸于一体的科技外向型企业。

东方瑞创采用清洁环保工艺生产的产品，素以高品质、绿色环保在业内享有良好的声誉。产品通过ISO9001:2015的质量管理体系认证，拥有国内先进的实验室和研发中心，70%以上的产品长期稳定的出口到欧洲、北美、南美、东南亚以及中东等40多个国家和地区。每年向全球橡胶工业输送2万吨以上的橡胶助剂产品。优质的产品、稳定的供应，赢得了广大国内外客户长期的信赖。

东方瑞创产品主要分为十大类、一百余品种。可以生产粉末产品、充油产品、颗粒产品、超细粉末产品以满足客户的不同需求。目前已成为中国橡胶助剂行业品种最全、最多的供应商之一。

东方瑞创秉承“诚信公正、互惠双赢”的理念，致力于服务全球橡胶工业。

**上海呈乾机械有限公司**  
Shanghai Chengqian Machinery Co. Ltd.

Shanghai Chengqian Machinery Co., Ltd. is an enterprise specializing in the production of precision rubber preformer, rubber strainer and cooling conveyor.

**Rubber preformer series:** piston ram type precision preformer machine, cold feed gear pump preformer machine. This kind of equipment is suitable for the production of rubber miscellaneous parts, O-ring, oil seal, valve, golf ball, auto parts, soles and other products. It integrates vacuum pumping, filtration, extrusion, cutting, weighing, counting and other functions, which can greatly save cost.

**Rubber strainer series:** silicone strainer, rubber strainer, cold feed gear pump strainer (sulfur-filtering), gear pump strainer (sulfur-filtering). Different types of equipment can meet the requirements of conventional rubber, special rubber and other types of rubber. Filtration process, rubber material can be filtered after adding sulfur!

**Rubber Cooling conveyor series:** chain type, vibrating type. Solving problem of temperature reduction and adhesion of rubber, and customizing making according to different production conditions.

## DRL SERIES COLD FEED PRECISION PREFORMER

This equipment adopts the advanced servo control system to control cutter, the cutter speed can be adjusted between 0-400 r/min., it can control the cutting length of rubber blanks effectively for random length, to realize the high precision given-length cutting. Cold feed precision preformer incorporated with straining, extruding, cutting and auto-calibrating of rubber blanks weight and countering functions, You can leave out the mixing, continuous rolling complicated procedures compared to traditional warm feed precision preformer which enable the rubber components production much easier.

## WELLTECH BRING FIRST CHOICE.

HIGH QUALITY    HIGH RESPONSIBILITY

### RUBBER ACCELERATOR

### RUBBER ANTIOXIDANT

Qingdao Welltech Chemicals Co., Ltd. is a rubber technology company with high innovation. Since established, our company is adhering to the principle of providing value-added services and products for quality customers, Welltech is constantly extending the business to high-quality rubber accelerator, antioxidant, master batch, insoluble sulphur, carbon black and customized value-added service to core customers.

Meanwhile, we are growing together with outstanding enterprises.

# XINGTAI SHINEWAY SCIENCE TECHNOLOGY CO., LTD

## COMPANY PROFILE

Xingtai Shineway Science & Technology company is a diversified carbon black company, focusing on Producing, R&D, innovating and marketing carbon black and Carbon Nanotubes(MWCNTS). With 9 lines and 2 production bases in Shanxi and Xinjiang Province, We may produce 30 grades carbon black with the capacity 250,000 Mts.

Our Carbon black are mainly used in Rubber & Tire, Masterbatches & Plastic, pigment & Ink as well as conductive carbon black. All carbon black Followed GB/T3778-2011 (ASTM-D) Standard. Our company have 300 skilled workers and 10 senior carbon black specialists who are over 20 years experience in Carbon black industries.

We got ISO9001:2015 Quality Management Certificate, ISO14001:2015 Environmental Management Certificate, ISO45001:2018 Occupational Health Management Certificate and EU Reach Certificate.

In Wenshui County, Shanxi Province, which is the coal sea in China have 6 lines mainly produce C111, C311, C611, N219, N220, N330, N550, etc for Rubber, Tire, Masterbatches, Conductive Carbon black etc. In Kashgar City, Xinjiang Province, with plenty of Natural Gas, we mainly produce Half Re-enforced carbon black N774, N762, N990, Carbon Nanotube (MWCNTS) and Special Grade for mineral Application.

Our carbon black are widely export to Southeast Asia, Canada, UK, Australia, etc more than 40 countries. Our company adheres to "Quality First, Clients Foremost" to supply our customer best Quality Products with the Best Service. We hope to Join hands with our Friends and Customers for the mutual Benefit and glorious Future.

Qingdao Fihonor Chemical Science&Technology CO.,LTD.

FINE CREATING  
HONOR DEVELOPING

## FIHONOR INTRODUCTION

Fihonor Group take the Qingdao Fihonor-chemical science & technology Co., Ltd as the main operating body, headquartered is located in 19F, Flagship building, No.40 Hong Kong Middle Road, Qingdao, the group is mainly engaged in the research and development, production and sales of high-performance rubber additives, applied in the field of radial tires and special rubber products. Since its establishment, the company has paid close attention to the rubber additives industry trends at home and abroad, deeply culture the research and development and innovation of rubber additives, to promote environmental protection, high-tech rubber additives as its own duty, and constantly launched new products, new technologies, "environmental protection, innovation, win-win" enterprise concept has become the cornerstone of the company's development. Company strong scientific research and development, management and process control ability, make the company launched the release agent, mould release agent, tires marking line, tire finishing pains, rubber homogenizer, rubber dispersant, rubber protective waxes, high dispersion colloidal particle, tackifying resins, resorcinol formaldehyde resin, compound rubber, and other products in just a few years time has been dozens of radial tire enterprises at home and abroad recognition and use. Fihonor additives save a lot of production costs for the tire enterprises, is the magic weapon for tire enterprises to win in the fierce market competition, and has become the ideal brand of rubber processing additives in the industry.

Deeply culture the research and development production, assistance the development of rubber enterprises

Using FIHONOR additives to make happiness tires.

# RubberWorld<sup>years</sup> 134

## FREE Digital Subscription to Rubber World Magazine

Rubber World Magazine, first published in October 1889, has chronicled the events and technological changes in the rubber industry since its inception. Now, over one hundred and thirty years later, Rubber World is published twelve times a year providing the most up-to-date technical service information available to today's rubber chemists and formulators. It gives research and development personnel the most current technical know-how and provides plant engineering personnel with the latest equipment and production technology to produce the high-quality and high performance products demanded by today's industry.
